

# Green Cities, Clean Waters

Learn how you can improve our local sources of drinking water and help "green" Philadelphia!

Please join us at the "Green Cities, Clean Waters" exhibit to learn more about what the City and its partners are doing (and what *you* can do) to improve our City's water and land environment.

Also, don't forget to visit us for the "Green Cities, Clean Waters" *public meetings* in August, to hear more details on the City's plan to improve our waters and to green our city.

We want to hear from you!

## Green Cities, Clean Waters Exhibits
